👤 PROFILE

Experienced in business thinking and strategic planning. Passionate and specialized in photography. Analytical, organized, and detail-oriented, with the ability to perform effectively under pressure and meet deadlines. A collaborative team player, eager to expand my knowledge in business management, computational thinking, and UI design, while continuously improving my skills as a professional photographer.

📁 EXPERIENCES

Conducted numerous photoshoots across diverse subjects and settings. Developed strong technical skills and creative versatility in photography. Gained a deep appreciation for photography as a platform for expression. Learned to connect with people and build rapport through the lens.

Elements Studio [Full-time] 2025.08 - 2025.10

Photographer - Photoshop 📍 Patra

Achievements:

- Making memories last, with a lot of care and precision through on the field photography.
- Post-work editing to make the perfect album for your wedding or young one's baptism.

Freelance Photography [Part-time] 2016.06 - 2025.10

Photoshooter 📍 Patra

Responsibilities:

- Ensuring customer satisfaction with the use of excellent cooperation and skillful execution of any photography oriented task (product promotion, modelling etc).
- Providing ideas and executing them on the spot with close partners and fellow photography enthusiasts.

📁 PROJECTS

There has been many photography projects I have undertaken and the sheer amount of jobs is making it quite hard to select just a couple to showcase. I'm proud of every single one equally, as it's given me a chance to better myself and view the world from many different perspectives: the photographer's eye, but also an empath's.

Patras Motor Show 2018 - 2025

Car Event Photoshooting...

- In action, total car drifting spectacles.
- A more wild approach with excellent model photography in front of cars.

Video Game Industry Layoffs Paper

2022 - 2023

Research Paper highlighting the massive lay-off wave of game developers post-c19's sudden economic industry growth...

- Statistical analysis and correlation.
- Trends seen behind the scenes in "Goliath" video game companies.
